

Nine Little Boar(d)s and the Big Bad Wolf

ANSWER: Hunter

The video shows nine different games of dominoes, but played using cards from the card game Magic: The Gathering. Each game shown is incomplete, and each player can make some additional moves. Taking the positions of the cards from these additional moves and adding them up (and then going from 1->26 to A->Z) gives the clue phrase “VOROSH THE,” which clues a Magic: The Gathering card called Vorosh the **HUNTER**.

Below are the boards. The bolded cards are the ones that can be played after what is seen in the video.
