

# WHAT WE NEED IN A PANDEMIC...

*In crisis, people show their true colours and meet with purpose; what are the hidden meanings behind the intersections?*

# MARCH 10

Hello Everyone,

As you may know, COVID-19 is spreading rapidly around the globe and it is impossible for us to predict how things will impact us here in the university. Since the city is not yet infected, we will allow everyone to carry on as usual; however, we hope that everyone would record a few sentences about their daily paths.

Important note: make sure you specify which door of each building you leave from!

In times of disaster, our true colours are revealed. We are a university that began a revolution; we are a university that inspires growth; we are a university that will defeat the epidemic.

Stay healthy everyone.

Best Regards

Markus Teser

# MARCH 11

Hello Everyone,

As you all may know, we have a reported case of COVID-19 in the city. The university will stay vigilant and alert in this time of crisis.

From now on, we will forbid all fountain traditions. You may not dip your hands, nor drink the water of the fountain. If you ever are within 50 meters of the fountain, you are TAIANTED. You **MUST** record it accordingly as part of your movement.

Stay healthy everyone.

Best Regards

Markus Teser
